

## General IT Question Answers

1. If applicable, please identify any data systems required to be utilized and if they are web-based applications.

Georgia Work Ready Systems

2. For all applicable web-based data systems please identify any web-browser requirements and limitations (IE, Chrome, Firefox, etc.).

The recommended browser for Georgia Work Ready System is Chrome, but FireFox is also supported.

3. Will any required technology assets be provided as part of this contract and if so then please stipulate any cost limitations or requirements for the assets?

No requirements at this time.

4. Are there any special technology needs required to support this contract?

No requirements at this time.

5. If physical facilities are provided as part of the contract award, please identify any existing technology infrastructure that is in place and will be required to be utilized.

No requirements at this time

6. Are there any special software solutions/packages, including mobile applications, that are required to be utilized in support of this contract? If so, please identify them.

Microsoft Office Suite

7. Identify any applicable technology related compliance requirements (PCI, HIPPA, PHI, etc.).

Individuals that require access to Georgia Work Ready Systems will have to submit a portal request form provided by Three Rivers Regional Commission. All employees must be full-time; no temporary employee will be granted access.
